Mobile Number	{value_mobile_number}
Email	{value_email}

Gravity forms is a form builder plugin for Wordpress. It allows you to create forms within minutes from a quick and easy drag-and-drop form process. You have the option to use different types of fields from textarea, input box to calendar date picker and even image upload. Forms can then be embedded in any Wordpress page or posts. Gravity forms also has integration with 3rd party services like PayPal, MailChimp, etc
