Grid Manager

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The Grid Manager Magento module lets you overcome this difficulty — it allows you to choose which columns you'd like to display, their size, position, title. All available columns for any standard grid are at your disposal — all displayable data can be selected and inserted into a grid. You can view all your customized tables in one place with ability to reset the changes to the default table view.
