Mobile Number	{value_mobile_number}
Email	{value_email}

GS RichCopy 360 is the ONLY file copy utility that utilizes its own proprietary Multi-Threading technology that uses all logical cores. Its performance has been rated number 1 by many different technology experts. With more than 25,000 customers worldwide and in many fortune 500 companies. Main Features: - Copy open files - Long path name support - Multi threaded file copies (up to 256) distributing load on all cores, not just core0 as with most competitors. - Copy NTFS Security, file attributes, and date and time stamp. - Sends an email when job is done using local SMTP or Gmail, etc. - Option to run as a service and its own proprietary scheduler. - Full support. GS RichCopy 360 can copy open files without closing the program you are working on. This includes Outlook PST files, QuickBooks databases, Word and Excel documents. Optimized to work with windows server and workstation operating systems such as Windows 2012R2 to Windows 2003 and Windows 8.1 to Windows XP.
