## GShrink

Address Contact Person Mobile Number Email

{value\_address} {value\_contact\_person} {value\_mobile\_number} {value\_email}

Frontpage, Dreamweaver and other editors add un-needed code to your files, Gshrink will eliminate this and 1-shrink the file size by an average of 25%, 2-have your pages load much faster.Written In perl and easy to use and install(only 1 file) Gshrink allows you to simply paste your html and shrink it. Safe for code as well,perl,java and multimedia.
