guestbk2.pl

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

guestbk2.pl is an extension of Matt Wright's guestbook script. It adds a built-in form that allows the user to review their entry as it will look in html before saving it to the file. It preserves the data during review in a form on the same page for editing. No temporary files are necessary.
