

Guestbook (1)

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This script enables you to set up an extraordinarily configurable guestbook. The difference between this script and other guestbooks available on the Web is that you are able to administer various guestbook designs with just one central script. The script emphasizes greatest possible freedom in design for the user. It's even possible to include the guestbook into a table structure.
