hnGuestbook - Ajax Guestbook

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

hnGuestbook is a simple guestbook that use flat file to store the messages. That's mean no SQL database is required. The guestbook uses AJAX technology, so you could view the pages, and sign the guestbook without reloading the whole page. Some of features are bad words filter, spam protection, and a simple admin panel to manage the messages.
