HomeworkPost 1.0 is an ASP script that can be implemented into your existing school website, providing teachers with a quick and easy way to post homework assignments from any browser. It allows students and parents instant access to their homework assignments, 24/7. HomeworkPost 1.0 can be integrated easily into your website, it provides password login protection for teachers and administrators, and also incorporates email addresses, phone numbers and teaching assignments of each teacher. HomeworkPost can be used as a central staff communication page, allowing parents and students to email teachers, or click on the supplied link and gain access to homework assignments.
