Homezu is a renters Airbnb Clone Script, which is available on mobile platforms, IOS and Android. It's a turnkey script that provides the same platform as Airbnb does for booking rentals, around the world. Homezu is fast, secure and convenient and much better than using a standalone application. Entrepreneurs can profit from a website that works exactly like Airbnb. Homezu really is an entrepreneur's dream come true, because of the turnkey possibilities, every aspect of getting online is worry free.Homezu is the practical solution for an Airbnb Clone Script. Jeato brings you a complete marketing solution with four different package available: Lite, Premium, Premium Plus and Ultimate. With each package, you will receive all the benefits of Airbnb Clone, including a mobile friendly design, categories to showcase the best properties, with hourly booking and smart search features.
