

# How to Read RSS Feeds Using PHP and MagpieRSS

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

MagpieRSS is a PHP library that can be used read various type of RSS Feeds. In this simple tutorial, I'll provide 2 example to read rss feeds from other website. The first example is to read the latest news from reuters website and the second example it to read weather information from MSN weather.
