

HTML5 Blue Video Gallery

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

All the player graphics are driven by XML so you can change anything very easy. The gallery works in all major browsers environment – including IE through flash fall-back. Also, by inputting a single video in the video gallery, it becomes a video player; so you purchase one product, and you have two.
