

## **HTML5 Blue Video Gallery**

Address {value\_address}

Contact Person{value\_contact\_person}Mobile Number{value\_mobile\_number}

**Email** {value\_email}

All the player graphics are driven by XML so you can change anything very easy. The gallery works in all major browsers environment – including IE through flash fall-back. Also, by inputting a single video in the video gallery, it becomes a video player; so you purchase one product, and you have two.
