Email	{value_email}

The Stats counter is a page counter that doesn't require SSI. It is invisible and collects data from your visitors like Screen resolution, Browser version/type, operating system and referring pages (and unique/non unique page counts). All of which is displayed in a password protected admin page. It can also capture data often blocked by software firewalls. See: [statistic al counter](http://htmlfixit.com/free.php#stats_counter) for details, instructions etc.
