

# I-Bill IT - Authorize.net AIM and ARB Credit Card/eCheck Processing

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

When you use I-Bill IT to integrate Authorize.net services into your application, you get an intuitive and familiar programming model, with objects, collections, enums and more, not just a thin veneer over Authorize.net's API. I-Bill IT is also COM accessible so it can be called from classic ASP, Native C++, PHP (on Windows) or any language which supports COM. Check out I-Bill IT with a free no-time-limit trial version, then buy I-Bill IT for just \$99.00 and save yourself hours, or even days of programming.
