The Indoors Logger offers webmasters full real time logging and monitoring of their websites. Our powerful invisible web tracking system will monitor and record all your website visitors and let you see exactly what your users are doing on your website while they are surfing it. What can you use it for? 1. See exactly what your visitors are doing on your website. 2. Check who referred them (where did they come from). 3. Understand which pages on your website are most popular. 4. Keywords Analysis of your search engine referrers. 5. Get real-time detailed actions log. 6. Analyze Page Loads statistics and charts. 7. Use our Exclusive Real-time Session flow report. And much more... (see our Features pages for more info and screen shots).
