The iHTML Merchant is an affordable, fully customizable system for creating web storefronts. Ideal for small and medium sized businesses, it is both powerful and easy to use. ISPs will appreciate the browser-based administration which allows customers to handle their own configuration and changes. Featuring complete banner ad management, several different payment processing options, professional templates and the ability to handle complex shipping and tax calculations, this system is one of the fastest and easiest ways to get high-end stores online.
