Email	{value_email}

iLister, a multi-purpose classified listing script, is a highly customizable multi-language and SEO-optimized PHP classifieds software. iLister is ideal for multiple category classified website projects (cars, real estate, scripts, pets, electronics, clothing etc). iLister can also be used as a Yellow Pages-like business listing website with its flexible membership plan system and rich advertising opportunities generating revenues from your classifieds. Fully customizable code and SMARTY-based template themes are key to creating your own unique website. Mega flexible credit-based payment system allows for easy integration with payment engines and provides awesome tools to market your website. Buy a Standard Edition for your startup business or go for a cheaper Special Edition to power your subsequent classified projects. RTL themes are available for RTL languages (Arabic, Hebrew). Be sure to order custom code and template modifications by the manufacturer.
