Image Gallery Pro is Image Gallery Software/ Photo Gallery Software written in .NET for storing and displaying multimedia galleries of images, pictures and other files. This multi-user application is licensed based on the number of users. Each user can create an unlimited number of galleries. Galleries can be accessed anonymously, or you can require membership in order to view specific parts of the gallery. eCard Software Functionality: Image Gallery Pro includes an eCard Software feature for sending images/files as an eCard. eCards can be delivered directly in the email message or retrieved using a link sent in an email. eCards can be sent to multiple recipients. eCards can even be scheduled for delivery up to 2 years in advance with the purchase of the "send in future" add-on. Gallery Features: Image Gallery Pro supports an unlimited number of galleries, each with an unlimited number of categories and sub-categories. The software includes a membership option to limit or require membership in order to gain access to a gallery. Members are organized into Membership Types which can have limited eCard send capabilities. The software uses Search Engine Friendly (SEF) URL's to make indexing by Google and other search engines a breeze. File Features: Our built-in image browser and image upload tool greatly simplifies uploading files. Just browse and find the file on your computer, and Image Gallery Pro will automatically upload it to your web site. In addition, thumbnail images are automatically created from the full-size image. Image Gallery Pro can also place text over top of the image such as a copyright statement. Images/Files can be rated and commented on as well as viewed as a slide show.
