

Image Thumbnail Viewer

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

If you showcase images of any type on your site, this script should come in handy. It allows you to set up text links or image thumbnails that when clicked on, loads the intended image on the screen, inline within the same page. The image can be dragged around and set to center on the page.
