Free license available - http://www.websupergoo.com/linktous.htm ImageGlue is a set of Active Server Page Extensions for dynamic image generation. Create and modify quality images on your Windows NT or 2000 web server using simple ASP code. Read and write the following image formats: BMP, PNG, TIFF, JPEG/JFIF, GIF, Photoshop, QuickDraw PICT, Targa, QuickTime Image, Silicon Graphics, MacPaint, FlashPix. Draw image files or data, text, lines, shapes (unfilled, filled or textured). All available anti-aliased. Perform arbitrary transforms (e.g. rotation, skews, scaling) on any of these objects.
