Innovates InnoCat solution has been designed to create a low maintance,user friendly electronic catalogue. No need for difficult to install databases, or editing of hundreds of files. InnoCat sets up all the catalogue pages for you! All you need to do is fill a simple comma separated file with your part descriptions and prices and InnoCat does the rest. InnoCat comes with an example perl script which can be used to process orders, writing orders to a file on the server and/ or sending a confirmation mail to both buyer and seller. Features: *Sell thousands of unique items on-line *Built in search engine with sortable columns *Easily restyled to fit into your web design *Comma seperated catalogue - no database required. *Simple installation - just upload and go!
