

Insert Tab into Slot

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Insert tab into slot inserts one or more lines of random text (the "tabs") into the designated places in a template file (the "slots"). Use this script for random images, banner ads, "random URL" links, maybe even primitive load-balancing between servers.
