Instant ASP Scripts provides the "why" for Active Server = Pages. Numerous books on the market teach you how to use Active Server Pages but skim on real-world examples of its use. This book will show you how you can activate your company's Intranet or Internet web site. The book will show you how to create an Online Campus, a Corporate Library, Classifieds, Live Chat, Message Boards, Online Form Letters, Usage Tracking, Project Progress Management, Help Desk, Online Calculators and so much more. The CD that comes with the book includes an entire web site collection for all the sites created in the numerous chapters. The CD also includes all the SQL scripts so you can recreate the database tables simply.
