

Instant Business Network Server Small Business Edition

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

It enables to organize tracking of client requests and create the scheme of help desk management using ITIL. Streamline your customer service process! With IBN Help Desk you reduce time for company issues coordination. Its rule-based aggregation feature allows support staff or various departments within your company to track issues in a single location. Please visit our website for more details....
