Interactive Story

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This script allows any user to write an interactive story. Users read a page of the story, then select one of two links to decide what happens next. Eventually, they reach the end of what has been written so far. Then they can write their own addition to the story. It can also send an email notification to admin whenever a new chapter is added.
