Do you want to allow your customers to use separate email accounts for shipping and invoicing? Well, with the help of FME's Invoice Emails Magento extension, you can. FME always brings its customers great solutions ranging from small to enterprise level. Along with several best selling Magento extensions related to checkout which FME has developed, this is another beautiful extension that extends Magento's default checkout behavior where order confirmation and invoice emails are sent to same e-mail address provided during checkout. Now a separate field named as "Invoice Email Address" is added to the billing section of checkout where your customers can provide any desired email address on which they would like to receive invoice.
