IP-LOGGER

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The IP-LOGGER records all accesses of your websites. Moreover not only the date and the IP number is stored, also the browser related by the User and the HTTP_REFERER. So you can see from which websites the User comes. The IP-LOGGER stores the data in a single TXT file and requires no MySQL databank. The IP-LOGGER contains also a reloadprotection
