<b>Email</b>	{value_email}

This plugin tracks and displays the 100 most recent visitors browsing your blog site. It displays information such as where the visitors came from (city, region and country) and the time of their visits in a table form as well as a graphical map. This plugin is absolutely free, thanks to the geo location technology powered by IP2Location. Furthermore, there is no registration, sign up, programming or database installation are required in order to use this plugin.
