iStateSoft Auto Manager is a fully-rebrandable, powerful car rental solution, which was developed with car dealers' needs in mind. Its main function is to automate car search, car presentation, and car hire process, thus facilitating day-to-day car rental/sales operations. iStateSoft Auto Manager is a full-featured vehicle listings software, which allows car dealers to manage their fleet easily and quickly. The comprehensive administrator's control panel allows you to add, edit, approve or decline listings, add, edit, manage car owners, check in the car availability, accept payments right from the web site, upload unlimited car photos and movies, keep track of car reservations, set up different membership levels, and print/export reports. The software can be used both for car rents and car sales. Showcasing vehicle listings with iStateSoft Auto Manager doesn't require strong computer knowledge. You manage the listings using only your browser.
