Help desk & support ticketing. We have decided to make iSupport THE ultra-robust & affordable customer support solution. This system includes support ticketing, a knowledge base system (with commenting) and support ticket conversion features. FAQ, announcement & customer testimonial system. Multiple administrator support, extensive administrative panel, support panel and client panel. Email notifications (sorry no email piping.. Yet), unique template system & powerful support ticket organization features. Our easy installation will have most users up and running quickly. Customization is also quite easy, even for the non-programmer. Many additional features are yours as well with iSupport, please come check them out at our website. Live demonstrations available.
