

J-Ads 2

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

J-Ads 2 is a "roller banner" based Applet that allows you to display multiple banners in the same 468x60 screen. J-Ads is easy to install on your web page. You just have to fill in basic parameters for a simple use. It also includes features: Animated GIF support, Random features, JPEG format support, Configuration file, Nice banners loading management, and Server-side click reports using Perl CGI script.
