Email	{value_email}

Jamit Job Board is a PHP application for running and managing a jobs portal website. It is written in PHP and supported by a MySQL database. It is a complete script for those that want to run a professional Job Board website, with all the features that you would expect and simple and easy to navigate and use. The Job Board script was designed by applying many of the principles learned from the study of Human-Computer Interaction (HCI). Features includes Employer's area, Job Seeker's area, Email alerts, Job Search, Online resume, Multi-lingual, Dynamic Forms, Billing system for subscriptions & posting credits (integrated with PayPal IPN), and more.
