

# JavaScript Image Slideshow (increment preload image)

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

This is a unique slideshow script that will intelligently preload its images one at a time, while the preceding image is being shown. Use this script if your slideshow contains a lot of heavy duty images, and you don't want your visitors to wait forever (literally) before he/she can see the slide.
