

Javascript Portfolio

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The colors are easy to customize and there are no images used for the colors. There is a documentation that brings a clear explanation how to setup this portfolio page. But you can start right away with the example file! The custom.js is minified for the preview. But the download file contains the normal coded file.
