Javascript Rollovers

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This used to be the language you had to know in order to get links in a color other than blue, or do image rollovers and other such things. There is still a great deal to be done with it; that is, I don't think it will disappear in a year or two. I like using it, actually, so I am going to post a sample bit of code up here.
