

jConvert jQuery plugin

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

jConvert is very simple to use, just call one function and all your measurements will have a tooltip showing conversions to other units. Use jConvert on your recipe website, DIY blog or anywhere you want to offer conversions for your measurements. jConvert is so simple and will make your site more accessible for foreign audiences which use different metrics.
