

# Jedi Knight PHP Server Controller

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

No database setup needed! This lets you remotely control your Jedi Knight game servers. Very handy for when you're changing files/mods on a remote server, renting servers or just always traveling and need to control your server from a mobile device that doesn't have access to rcon.
