

jKit

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Put jQuery and jKit on all your pages and HTML becomes so much better. And the best thing? You really don't have to be a programmer to create a trully amazing website! jKit has 99% of all the features you ever need. You don't have to check out dozens of plugins, learn how to use them, only to find out they don't work in a specific browser.
