Job Recruitment Software

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Job recruitment software allows you to start a fully automated and comprehensive HR recruitment agency website. Developed in PHP/MySQL which exports pages to HTML in mod rewrite. All templates of the job recruitment are DIV templates. Include in the hr solution are banner adverts tool, automated FAQ, upload documents in any format and add news articles, set dates on which they automatically expire. Add unlimited number of job adverts, detail job adverts, fully search able jobs and advance job search. Our job recruitment software will allow you to submit your jobs direct to our job board software.
