jQuery Banner Rotator

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

jQuery banner rotator plugin featuring multiple transitions that supports text effects for captions. The thumbnails and buttons allow for easy navigation of your banners / ads. Features Included: Resizable and configurable through the plugin parameters and CSS file. Multiple transitions are available. Also you can set a different transition per slide. Flexible transition speed and easing. Also, can set a different time delay for each slide. You can set the slider to play once and stop at the end of the slide. Randomize to show items in a random order. Banner, thumbnails and buttons are all resizable. Mouse wheel scrolling supported. Mobile touchscreen supported. Caption Text Effects: Supports HTML formatting. You need to add class named content for animated captions. You can change animation direction, offset, time and delay via content parameters.
