jQuery Drag Expose | Draggable Image Gallery

Address   {value_address}

Contact Person   {value_contact_person}

Mobile Number   {value_mobile_number}

Email   {value_email}

If you prefer, auto-sliding and two arrow buttons can facilitate your gallery slideshow. Zoom them with a simple click or redirect to another page! Zooming can be stopped at any time by clicking it during animation. You can simply configure it thanks to the XML configuration and XML code generator! Fits to any thumbnail size and supports from 4 to infinite images! Three different alignment types! Easy to include in a page! It's possible to place one of them in any of your websites pages. Well commented code allows you to simply customize the source too. Two versions of the plugin available, normal and minified for better performance.
