

# jQuery Image Warp

<b>Address</b>	{value_address}
<b>Contact Person</b>	{value_contact_person}
<b>Mobile Number</b>	{value_mobile_number}
<b>Email</b>	{value_email}

jQuery ImageWarp adds an interesting "warp" effect to select images on your page so clicking on them causes the image to expand temporarily before reverting back to the image's original dimensions. It's most useful when applied to hyperlinked images to create a delayed effect before the user is taken to the actual link.
