

Jquery Price Calculator Plugin

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Order Now is an awesome Jquery Plugin that will allow you to add a running estimate to your form. This plugin is crafted with Jquery and uses HTML5 local storage. You can specify various form elements such as checkboxes, drop down lists, radio toggles and also the amazing Jquery UI slider. My goal was to make an estimate plugin that's simple and provides a great user experience. Please check out the video demo below!
