

jQuery Two Tier Sliding Menu Plugin

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

It supports only two levels of nested HTML lists (in other words, one main list and one child list for each main item, the most). It allows to initially open the menu at a ceratin item and, optionally, have it close all the other opened items upon opening an item. Features: powered by jQuery easily resizable PSD with slices included simple HTML clean design
