

jsCountdown Easy

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

The name says it all ! Included are 14 different skins to choose from and a template file (png format) to make your own. I've also simplified the setup process with an option generator and a preview in the documentation (can be seen in screenshots). All of the skins can be seen in the preview.
