Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This java based line chart applet enables you to add flexible and great looking line and plotter charts to your web applications with just a few lines of html code. The chart supports 2D and 3D lines, stacked and filled lines, interactive range adjuster, and drilldown functionality. The footprint is only 18 KB and the applet is compatible with Internet Explorer 3.0 or newer and Netscape 3.0 or newer.
