

Link Organizer

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

This is a comprehensive link list organizer that will allow you to customize and administrate a small to large link site. It sorts your links by alphabetical letter, but it can display them randomly or evenly and also rotate them automatically for you. This has been tested on a link site with 3000 links. Some of key features include: Compile and create a special new HTML page and every category HTML page using the information in the link database and your templates, You can change the output of every category page, including adding targeted sponsor banners, Script automatically updates all HTML pages at preset times of day, week, month or hour using crontab, Special admin search engine, easily edit, add and delete any link in the database, detailed approve functions, Duplicate URL blocking, and more
