Linklok URL

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

Protects files by securing links to them using MD5 hashing. This way nobody ever knows the true location of your files. Links can also have an expiry time from 1 minute to several years if required making it easy to control access. Linklok URL can also be used with a download form to email secure time limited links to a user. User only gets the links if they enter a valid email. Can also filter out free or other types of email addresses if necessary. Now has a manual entry form, CAPTCHA code, Aweber, GetResponse, Mailchimp, ARP Reach, Amazon S3, Dropbox, Sendgrid and PDF Watermarking support as well. eCommerce versions for Paypal, 2CO etc also available.
