Mobile Number	{value_mobile_number}
Email	{value_email}

CedCommerce Jet-Magento Integration extension interacts with Jet Marketplace to integrate the synchronized product listing between Magento and Jet.com retailers. After extension installation, merchant can create Jet Categories and their dependent attributes on the Magento store. The process enables the merchant to configure the desired product category in the Magento store for automatic submission of the selected product to the same Category on Jet.com. Jet integration extension provides management of following features with help of Jet API:
