

ListenUp voice recorder for the web

Address	{value_address}
Contact Person	{value_contact_person}
Mobile Number	{value_mobile_number}
Email	{value_email}

ListenUp is a scriptable Applet that can run in a web page. It displays a waveform, level meter, time display. The GUI can be customized with skins or JavaScript/HTML. Recorded messages can be uploaded to server using multi-part MIME. They can also be downloaded and played using the Applet. Support for Speex and WAV (PCM, ADPCM, or uLaw).
